

BOLL ACRYLIC LACQUER WHITE – RALLY GLOSS / MATT

White acrylic lacquer gloss / matt – rally is a fast drying paint with good adhesive features, with internal and external application. It is ideal to paint metals, wood, plastics, gypsum, brick and paper. It can be applied to touch ups for cars, furniture, as a hobby, etc. It creates an attractive, modern and durable lacquer coat.

Application:

Carefully clean and degrease and dry the place to be covered with lacquer. Cover the adjacent surfaces with paper. Before use, shake the container well for about 3 minutes. Keep the container at a distance of 15-20 cm from the painted surface. After use, turn over the container and spray until the valve is empty. Drying time: about 60 minutes at 20°C.

Physical properties

general description:	a mixture of active substances sprayed propane / butane
color:	white matt or gloss
heat resistance after curing:	up to 100 ° C
boiling point:	- 42 to 142° C
flash point:	-104° C
ignition temperature:	not determined
self-ignition:	450 ° C
density:	about 7g/cm ³
explosion limits:	upper: 9.6% vol. / lower: 1.9% vol.

Comments:

All technical specifications are approximate. We recommend to test the material to make sure it is appropriate for the specific application. The producer reserves the right to improve the product and change its technical properties, including modifications to the specification.
