

## **BOLL LAMBSWOOL DISC**

The polishing fur with Velcro is used to polish all lacquered surfaces with cosmetic substances. Natural sheep fur prevents surfaces from overheating. It removes old dirt and oxidised lacquer from deep scratches and cracks. It restores natural colour and gloss of lacquered surfaces. It is suitable for all types of lacquers.

### **Application:**

Fix the fur to the polishing devices with the BOLL Velcro grip. Apply a small quantity of polishing, abrasive paste or a cosmetic substance (glazing or waxing) onto the fur surface. Polish with the external side of the disk.

***Diameter: 180 mm***

### **Comments:**

*All technical specifications are approximate. We recommend to test the material to make sure it is appropriate for the specific application. The producer reserves the right to improve the product and change its technical properties, including modifications to the specification.*
