

STRUCTURE LACQUER FOR PLASTIC SPRAY

EAN code: 5907588403191 item no.: 0014001 grey

EAN code: 5907588402446 item no.: 001400 black

PROPERTIES

Structure lacquer for plastic is a quick-drying and well-binding paint based on acrylic resin. Perfect for painting plastic bumpers, moldings and other plastic parts. Creates an attractive, durable, structural coating in black or dark grey matte. This paint can be applied directly to all plastic surfaces without a primer.

COLOUR

grey

black

METHOD OF USE

Thoroughly clean and degrease the surface. Cover adjacent areas with paper. Shake the container well for about 3 minutes before use. While painting, keep the container at 15-20 cm distance of from the surface. After use, invert the container and spray until the valve is empty. After approx. 20 minutes the structure can be varnished.

APPLICATION

Thoroughly clean and degrease the surface

Shake thoroughly

Spray 2-3 layers from a distance of about 15-20 cm

Evaporation time between layer: 5 ÷ 10 minutes

After approx. 20 minutes the structure can be varnished.

Spray until the valve is empty

PHYSICAL PROPERTIES

density at 20°C:

0,843 g/cm³

STORAGE CONDITIONS

Protect the product from excessive heat and cold. Avoid direct exposure to sunlight. Store in a dry place.

SHELF LIFE

24 months from the production date placed on the package.

SAFETY

See Safety Data Sheet.
