

TECHNICAL DATA SHEET

WHITE GREASE SPRAY

EAN code: 5907588402774 item no.: 001036 cap. 400ml

+ PROPERTIES

White grease is a lithium-teflon-based product designed to protect components subjected to particularly high loads. It protects moving parts, guides as well as bearings, pins and battery terminals. Acts as a friction minimizer, insulator and preservative. Protects against the effects of water, salt, rust and also low and high temperatures. Causes longer life of bearings, hinges, locks, chains, gears, etc. Holds its lubricating properties at temperatures from -20°C to +150°C.

• COLOUR

white

☰ INFORMATION

Do not apply to lacquered wires and electrical windings - the product dissolves resins.

/// APPLICATION

Mix thoroughly

Apply a thin, equal layer from a distance of about 5 – 10 cm.

+ PHYSICAL PROPERTIES

Physical state:	aerosol
Temperature of use:	+10°C – +35°C

**STORAGE**

Protect the product from excessive low and high temperatures. Avoid direct exposure to sunlight. Store in dry places.

**SHELF LIFE**

Two years from the production date placed on the package.

**SAFETY**

See Safety Data Sheet.

**OTHER INFORMATION**

All technical data are approximate values. We advise you to test the material to ensure its suitability for a specific application. The producer reserves the right to improve the product and change the technical conditions with the possibility of making changes inside the specifications.
