

# PTFE GREASE

EAN code: 5907588404556 item no.: 0014013 cap. 400ml

## + PROPERTIES

PTFE grease is a high quality product based on PTFE (tetrafluoroethylene), oils and solvents. It is an agent that lubricates, penetrates and protects against adverse weather conditions. It is designed for long term lubrication under the toughest conditions. This product reduces and eliminates friction and wear of lubricated parts. Protects against water, moisture, salt, acids, dirt, dust, sand, etc. This grease is specially formulated to lubricate parts subjected to high pressures, shocks and vibrations. This product protects every moving part by leaving a transparent layer of lubricant.

## • COLOUR

○ white

## ☞ METHOD OF USE

Thoroughly clean, degrease and then dry the area to be lubricated. Shake the container for about 3 minutes before use. Apply a thin layer of grease evenly. After use, invert the container and spray until the valve is empty.

## ↓ APPLICATION

Thoroughly clean, degrease and dry the surface

Mix thoroughly

Apply a thin layer of grease

After use, invert the container and spray until the valve is empty

## PHYSICAL PROPERTIES

working temperature:	from -50 to 200°C
physical state:	aerosol
density at 20°C:	0,722 g/cm <sup>3</sup>
yield:	1,5 g/sec

## STORAGE CONDITIONS

Protect the product from excessive heat and cold. Avoid direct exposure to sunlight. Store in a dry place.

## SHELF LIFE

24 months from the date of production placed on the package.

## SAFETY

See Safety Data Sheet.

## OTHER INFORMATION

All technical data are approximate values. We advise you to test the material to ensure suitability for your specific application. The producer reserves the right to improve the product and change the technical conditions with the possibility of making changes inside the specification.
