

TECHNICAL DATA SHEET

PTFE GREASE SPRAY

EAN code: 5907588404556 item no.: 0014013 cap. 400ml

+ PROPERTIES

PTFE grease is a high-quality product based on PTFE (tetrafluoroethylene), oils and solvents. It is an agent that lubricates, penetrates and protects against adverse effects of the weather. It was developed for long-term lubrication in the toughest conditions. This product reduces and eliminates friction and also wear of lubricated parts. It protects against water, moisture, salt, acids, dirt, dust, sand, etc. The grease is specially formulated to lubricate parts subjected to high pressures, shocks and vibrations. This product protects any moving part by leaving a transparent layer of grease. It holds its lubricating properties at temperatures from -50°C to +200°C.

• COLOUR

white

/// APPLICATION

Thoroughly clean, degrease and dry the surface

Mix thoroughly

Apply a thin, equal layer of grease from a distance of 5 - 10 cm

+ PHYSICAL PROPERTIES

Physical state:	aerosol
Temperature of use:	+10°C – +35°C

STORAGE

Protect the product from excessive low and high temperatures. Avoid direct exposure to sunlight. Store in dry places.

SHELF LIFE

Two years from the production date placed on the package.

SAFETY

See Safety Data Sheet.

OTHER INFORMATION

All technical data are approximate values. We advise you to test the material to ensure its suitability for a specific application. The producer reserves the right to improve the product and change the technical conditions with the possibility of making changes inside the specifications.
