**+** PROPERTIES

BOLL SEALING WAX B300 is used for final finishing and protection of polished surface. It provides a very deep shine and long lasting protection of the varnish against adverse weather conditions.

**•••** COLOUR

 creamy

**↪** METHOD OF USE

This product is ideal for machine and hand application. In case of machine polishing, apply a small amount of paste on a properly selected polishing sponge attached to the polishing machine. Then, using a sponge, spread the paste on the part and start polishing, starting from the lowest speed. Gradually increase the speed of the polishing machine, remembering not to exceed 2,000 rpm. If using by hand, apply a small amount on a soft cloth and spread evenly over the part. After drying, remove the residues with BOLL microfibre.
